EMS and Fire Protection Information Survey

July 3, 2012

«AddressBlock»

Greetings,

The Indiana Department of Transportation (INDOT) continues Tier 2 environmental impact studies along the 142-mile I-69 project corridor from Evansville to Indianapolis. This corridor has been divided into six sections for Tier 2 Studies. Each section is being independently reviewed. Michael Baker Jr., Inc. is evaluating potential human and environmental impacts associated with upgrading SR 37 into I-69 in Monroe and Morgan Counties (Section 5). As shown on the enclosed Reference Map (on page 6), Section 5 is approximately 23 miles in length. It begins at SR 37 near Victor Pike (southwest of Bloomington) and continues along SR 37 to SR 39 in Martinsville. Proposed changes in access associated with each alternative are summarized on Table 1: Section 5 Access Comparison.

You have received this survey because this transportation project is being considered for your area and may affect your business. The purpose of this EMS and Fire Protection Information Survey is to identify issues and concerns of the service providers. We are especially concerned with potential project effects on access to your coverage area and emergency response times. The information collected in this survey will be incorporated into the analysis of the impacts of this project on the human and natural environment. You may receive additional requests for information about how the proposed project will affect your business in the future.

Please respond to each question as completely as possible. You may contact us at the number below if you have any questions about the project or would like more information about how to respond to this survey. The time you take to complete this survey and any subsequent surveys mailed to you is greatly appreciated. Please return the form to the address below no later than July 27th.

Thank you very much for your assistance.

Sincerely,
MICHAEL BAKER JR., INC.

Mary Jo Hamman
Section 5 Project Manager

EMS & Fire Protection Service Location

1. Provide the full name and address of your emergency response and/or fire protection service facility.

2. Please provide contact information for future correspondence on this project.

3. How many years has your facility been at this location? _____

4. How many full time employees do you have? _____

5. How many part time employees do you have? _____

6. What are your hours and days of operation? _____

7. Do you lease or own your site? _____

General Information

8. What services do you provide (i.e. fire, emergency medical services, hazardous materials response, etc.)? _____

9. Is travel on SR 37 required to provide service? Yes _____ No _____

If yes, please highlight specific roads and interchanges used to access or cross SR 37 on the attached map.

10. Does existing congestion on SR 37 or at interchange areas currently interfere with the provision of emergency services and incident response times? If yes, please briefly describe.

11. What is your average response time? _____

I-69 Evansville to Indianapolis Tier 2 Studies

12. May we review your annual incident statistics for this study? Yes ____ No ____

If possible, please provide a copy with this survey or email a digital copy to

MHamman@mbakercorp.com

13. If annual incident statistics are not available, please provide the name and number of someone in your department who may be available to discuss the frequency and location of incidents to which you respond.

14. To which hospitals do you transport for medical emergencies?

15. Please identify and describe the typical coordination/support with other emergency service providers in your area.

16. For each station, please provide the following details. This information will assist us in minimizing impacts to your response time. For additional stations, please continue on the back of this form.

Station # _____

Address: _____

Average staffing level and type (paid or volunteer): _____

Level of use of SR 37 for emergency response (low, medium, high): _____

Additional information about this station:

I-69 Evansville to Indianapolis Tier 2 Studies

Station # _____

Address: _____

Average staffing level and type (paid or volunteer): _____

Level of use of SR 37 for emergency response (low, medium, high): _____

Additional information about this station:

Transportation Information

17. Where are most of your services provided? (Check all that apply)

- ☐ Bloomington
- ☐ Martinsville
- ☐ Ellettsville
- ☐ Other (Please Identify) _____
- ☐ Out of state

18. From where do most of your employees and volunteers come? (Check all that apply)

- ☐ Bloomington
- ☐ Martinsville
- ☐ Ellettsville
- ☐ Other (Please Identify) _____
- ☐ Out of state

19. Does your service have specialized site requirements, such as rail access, acreage, underground storage areas, city water or sewer, permits, etc? _____

If yes, please describe. _____

20. Which of the following types of vehicles regularly access your facility? Check all that apply and provide a general estimate of the number per day.

- ☐ Passenger vehicles for employees _____
- ☐ Emergency vehicles _____
- ☐ Delivery trucks _____
- ☐ Rail cars _____
- ☐ Buses _____
- ☐ Other (specify) _____

Project Impacts

21. Do you currently have plans to expand your services? If yes, describe (add employees, add shifts, expand or build new facility at current site, expand your service area) and be as specific as possible.

I-69 Evansville to Indianapolis Tier 2 Studies

22. Do you believe that your EMS and/or fire protection service will be directly or indirectly affected by the project? If yes, how do you believe you will be affected?

- a. Will access to or from your service area be improved or impeded?

- b. Please describe the effects of any adverse impacts on your ability to continue to service the community at your current location.

23. Please review the attached table and provide your input on each of the proposed alternatives.

Other Information

24. Please provide any additional information or comments that you would like us to address. You may also attach additional sheets or a letter from your organization with your comments.

Thank you for your participation in this survey

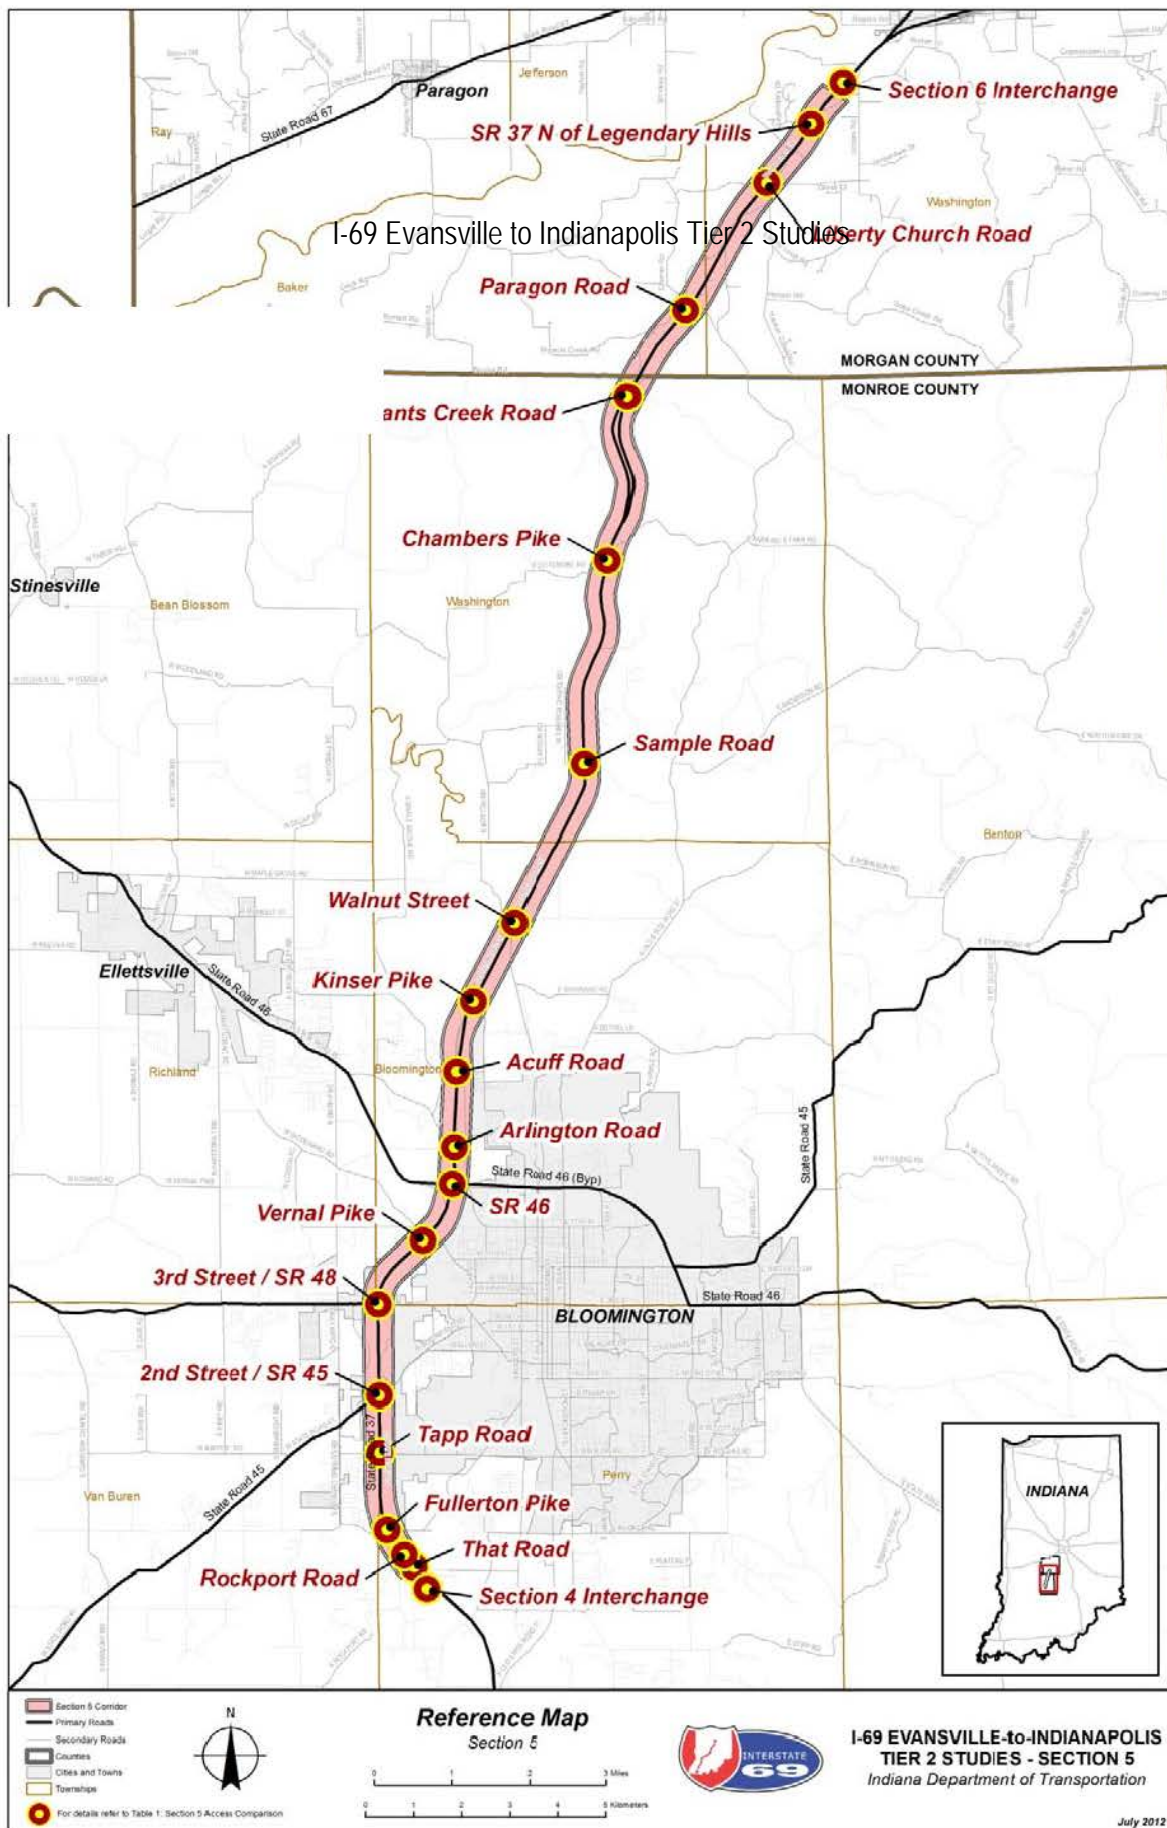

Please mail or e-mail this survey and the study area map to:

EMS & Fire Protection Service Location

1. Provide the full name and address of your emergency response and/or fire protection service facility.

Bloomington Township Department of Fire and Emergency Services
5081 N. Old State Road 37
Bloomington, Indiana 47408

2. Please provide contact information for future correspondence on this project.

Bloomington Township Trustee - Linda Sievers
Fire Chief - Faron Livingston
Assistant Chief - Joel Bomgardner

3. How many years has your facility been at this location? 41
4. How many full time employees do you have? 11
5. How many part time employees do you have? 30
6. What are your hours and days of operation? 24/7 365
7. Do you lease or own your site? Own

General Information

8. What services do you provide (i.e. fire, emergency medical services, hazardous materials response, etc.)? All the above

9. Is travel on SR 37 required to provide service? Yes ☒ No ☐
If yes, please highlight specific roads and interchanges used to access or cross SR 37 on the attached map. All

10. Does existing congestion on SR 37 or at interchange areas currently interfere with the provision of emergency services and incident response times? If yes, please briefly describe.

4-lane 37 + 45/46 interchange at rush hour.
Dangerous to Cross 4-lane 37 at Sample, Hcuff, Simpson Chapel,
Chambers Pike, Crossover Road, and Burma Road.

11. What is your average response time? 8 minutes

I-69 Evansville to Indianapolis Tier 2 Studies

12. May we review your annual incident statistics for this study? Yes ☒ No ☐ (included)
If possible, please provide a copy with this survey or email a digital copy to MHamman@mbakercorp.com

13. If annual incident statistics are not available, please provide the name and number of someone in your department who may be available to discuss the frequency and location of incidents to which you respond.

Assistant Chief - Joel Bomgardner

14. To which hospitals do you transport for medical emergencies?

I-U Health Bloomington Hospital
Monroe Hospital
(plus Monroe County Emergency plan)

15. Please identify and describe the typical coordination/support with other emergency service providers in your area.

Monroe County Fire Chiefs Mutual Aid
Agreement (Included)

16. For each station, please provide the following details. This information will assist us in minimizing impacts to your response time. For additional stations, please continue on the back of this form.

Station # 5

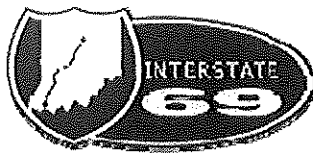

Address: 5081 N. Old State Road 37

Average staffing level and type (paid or volunteer): 3 on duty 24/7, Chief & Assist. Chief M-F 8-5

Level of use of SR 37 for emergency response (low, medium, high): high

Additional information about this station:

This is our headquarter station which serves Bloomington, Benton, and Washington Townships. Total of 136 square miles.

I-69 Evansville to Indianapolis Tier 2 Studies

Station # 15

Address: 2115 W. Vernal Pike

Average staffing level and type (paid or volunteer): Combination. M-F 8-5, 1 paid. Volunteers for

Level of use of SR 37 for emergency response (low, medium, high): Medium

Back-up.

Additional information about this station:

This is a satellite station. Monday through Friday is staffed
by one paid firefighter 8am - 5pm. Rest of day is supported
by volunteers.

Station # _____

Address: _____

Average staffing level and type (paid or volunteer): _____

Level of use of SR 37 for emergency response (low, medium, high): _____

Project Impacts

21. Do you currently have plans to expand your services? If yes, describe (add employees, add shifts, expand or build new facility at current site, expand your service area) and be as specific as possible.

Not at this time. However, we are planning to relocate station 15 to Washington Township to better serve the Northwest side of 4-lane 37.

I-69 Evansville to Indianapolis Tier 2 Studies

22. Do you believe that your EMS and/or fire protection service will be directly or indirectly affected by the project? If yes, how do you believe you will be affected?

Access to West of 4-lane 37 coverage area.
West area of 4-lane 37 from 3rd Street to Morgan
County line.

- a. Will access to or from your service area be improved or impeded?

Impeded with road closures and construction areas.

- b. Please describe the effects of any adverse impacts on your ability to continue to service the community at your current location.

Dependent on temporary or permanent re-routing
of roads and intersections.

23. Please review the attached table and provide your input on each of the proposed alternatives.

Other Information

24. Please provide any additional information or comments that you would like us to address. You may also attach additional sheets or a letter from your organization with your comments.

Interstate 69 Project Concerns of Bloomington Township Department of Fire and Emergency Services

As we approach the beginning of construction for the I-69 connection between Bloomington and Martinsville, the majority of this section of Interstate will divide the Townships we serve. As it stands now, Indiana State Road 37, 4-lane, divides it. However, we have access roads and several street crossings allowing us to respond without great difficulties. With the new construction becoming an Interstate, many of the cross streets will be eliminated. Thus, adding time to the crucial responses in our protection area. Our major concerns are;

We will need to access to the area west of the 37/69 corridor. Our headquarters, station 5, and satellite station 15 are both east of the corridor. Station 15 on West Vernal Pike will no longer have access. It will need to be moved further out into Bloomington Township or Washington Township with whom we have a contract.

Other concerns are;

- Locations of interchanges?
- Access to frontage roads?
- Are there any plans for locations of rest areas and if so, where?
- Service access cut through median and mileage between them.
- Availability and access to current fire hydrant locations.
- Will there be mile markers present?
- Consideration of increased Hazardous Materials transported and transportation of munitions from Crane.

Another concern is the Northbound and Southbound lanes north of Burma Road, close to the Morgan County Line. This area has produced many car accidents over the years in wintery conditions, as well as rainy conditions. We feel this is due to the fact of a sharper curve and the culvert that passes under the roadways, thus, allowing winds to pass underneath the road which freeze the roadways faster than normal. This has proven to be a challenge to emergency responders giving treatment to accident patients, all the while looking out for the safety of our emergency workers from sliding automobiles.

Oliver Winery and Worm's Way will also pose a problem with access to each business. They are both listed as visitor recommended stops in the Wonder Indiana brochures available throughout Indiana Rest Areas. This will pose a problem for access to them and the automobile traffic they create to merge on and off the Interstate.

As stated earlier, these are our concerns and we are addressing them to you, as this plays an important role in Bloomington Township Fire Department's Master Plan for planning the future of our satellite station relocation, apparatus, equipment needs, and budgeting.

Thank you for your consideration,

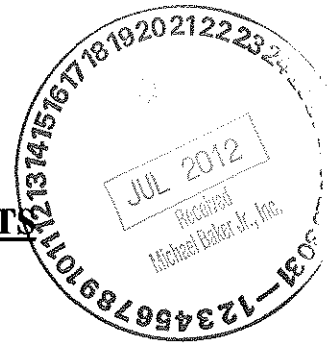

Linda G. Sievers, Trustee
Bloomington Township
2111 W. Vernal Pike
Bloomington, IN 47404

April 24, 2012

Faron Livingston, Chief
Bloomington Township Department of
Fire and Emergency Services

MUTUAL AID AGREEMENT
MONROE COUNTY FIRE DEPARTMENT

PURPOSE

The purpose of this agreement is to provide the agreeing parties with additional resources through mutual cooperation when needed for emergency incidents, which exceed an individual department's capabilities, thus assuring the community of the best available protection. This agreement shall have no effect on other contracts or written agreements between departments.

EFFECTIVE DATE

This Mutual Aid Agreement shall become effective for each department as it is signed by the Fire Chief and the Executive of the entity and shall continue in force and effect thereafter, unless rescinded as provided for below. By signing, the parties agree to be bound by the terms of this document.

AMENDMENT OF AGREEMENT

A review or amendment to the agreement may be requested by any of the agreeing parties. Any amendment shall become effective for each department as it is signed by the Fire Chief and the Executive of the entity and shall continue in force and effect thereafter.

TERMINATION OF AGREEMENT

Any party wanting to withdraw from the agreement shall provide notice in writing to the Monroe County Fire Chiefs, at least 30 days prior to the intended termination of participation. Such notice shall be signed by the Fire Chief of the requesting department and the Executive of the entity.

REQUESTING AND RECEIVING AID UNDER THIS AGREEMENT

Requests for Mutual Aid under the terms of this agreement shall be made by the Fire Chief or his/her designee. The request shall be made through the radio base of the requesting department or through the Monroe County Fire Dispatcher and shall specify the type of equipment needed, unless a prior written agreement between departments calls for automatic response of certain personnel and equipment to pre-determined locations under specified circumstances.

When a Rescue or Hazardous Material Unit is sent on an emergency response into another department coverage area, the department normally operating in the coverage area shall also send a pumper to the scene to provide coverage in case of fire and/or explosion and to assist in preventing further endangerment of life. Under this agreement, each department shall supply requested personnel or equipment so long as such aid can be provided without jeopardizing that department's ability to meet the needs of its service area. This decision will be made by the Fire Chief or his/her designee of the department whose aid is requested.

PERSONNEL

It is the responsibility of the Fire Chief of each party to this agreement to assure that any personnel responding under the terms of this Mutual Aid agreement are members in good standing of his/her department and are adequately trained for the requested duty. The Fire Chief shall be responsible for the actions and conduct of all responding personnel from his/her department.

LIABILITY AND INSURANCE

Each party to this agreement shall assume all liability and responsibility for the death of, or injury to, all responding personnel of their own department.

Each party to this agreement shall assume liability and responsibility for any damage to, or loss of, their own equipment and/or apparatus, or damage to, or loss of, any personal property belonging to their own members.

Each party to this agreement agrees to maintain adequate insurance as required by the State of Indiana.

COSTS DUE TO SERVICE RENDERED UNDER THIS AGREE

Each party to this agreement agrees to assume all expenses for their own equipment and personnel when their department is responding to a call for Mutual Aid.

All departments responding agree to make no charge to the department requesting Mutual Aid. If a Hazardous Materials Unit and/or Team are utilized, the department responding the Hazardous Material Unit and/or Team shall bill the Spiller separately to recover equipment use cost.

COMMAND STRUCTURE

The Incident Command System will be used, with the Chief Officer of the requesting department or his/her designee acting as Incident Commander.

In cases where a department's Rescue, Hazardous Material, or other specialized team is requested, the department having jurisdiction shall maintain command responsibility for the scene until all specialized operations are concluded.

The Incident Commander or his/her designee shall maintain full and complete control of all responding units until the emergency is terminated. Said person may, at his/her discretion, relinquish control to a responding Officer if said designee feels he/she cannot fully control the situation.

The Officer in charge of the responding department shall report to the Incident Commander and act as a subordinate to the Incident Commander.

The Incident Commander shall notify responding units of their assignments and equipment placement.

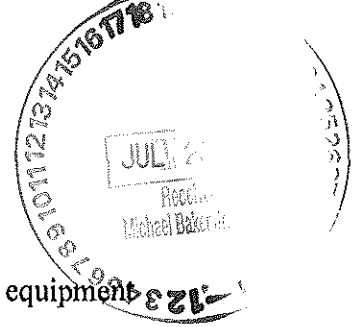

All responding personnel and equipment shall be under the command of their own Officers who shall receive their orders from the Incident Commander.

The Incident Commander may delegate phases of operational strategy and tactics to Officers and departments responding to the call for aid.

YEARLY STATUS REPORT

Each party to this agreement shall provide a status report to the Monroe County Fire Chiefs containing the following information. This information shall be reviewed yearly and shall be kept up to date by each Fire Chief.

1. Number of members in the department and rank or title of each person.
2. Number of pieces of apparatus and unit numbers
 - a. Pumpers (to include capacity)
 - b. Aerial Apparatus (type and length)
 - c. Chemical Equipment (foam on hand, etc.)
 - d. Specialized Equipment (Rescue, Rehab, Air/Support, etc.)

Subject: RE: I-69 Section 5 Environmental Studies -- Fire & Emergency Services follow-up

Hi Faron,

Thanks so much for your helpful follow-up! No worries, absolutely I do understand!

We appreciate you taking the time to clarify where response times are addressed in the NFPA guidelines.

We will review this information along with continuing to evaluate the other feedback you have provided through the process.

Thanks again for your time!
Jodie

Subject: Re: I-69 Section 5 Environmental Studies -- Fire & Emergency Services follow-up

Jodie,

Sorry for the confusion. You know how it is with OSHA Regs, NIOSH, and reading the fine print. Anyway, I got mixed up on my numbers and the correct, (as added below), is NFPA 1710 and NFPA 1720. Those are the correct sections and chapters. Sorry for the inconvenience.

Faron

NFPA 1710 -(requirements for a full time department)

(5) Functions that fire department members are expected to perform

4.1.2* The fire department organizational statement shall provide service delivery objectives, including specific response time objectives for each major service component (i.e., fire suppression, EMS, special operations, aircraft rescue and fire fighting, marine rescue and fire fighting, and/or wildland fire fighting) and objectives for the percentage of responses that meet the response time objectives.

4.1.2.1 The fire department shall establish the following time objectives:

(1) One minute (60 seconds) for turnout time

(2)* Four minutes (240 seconds) or less for the arrival of the first arriving engine company at a fire suppression incident and/or 8 minutes (480 seconds) or less for the deployment of a full first alarm assignment at a fire suppression incident

- (3) Four minutes (240 seconds) or less for the arrival of a unit with first responder or higher level capability at an emergency medical incident
- (4) Eight minutes (480 seconds) or less for the arrival of an advanced life support unit at an emergency medical incident, where this service is provided by the fire department
- 4.1.2.2 The fire department shall establish a performance objective of not less than 90 percent for the achievement of each response time objective specified in 4.1.2.1.

NFPA 1720 (requirements for combination and volunteer department)

Table 4.3.2 Staffing and Response Time

Demand Zone Demographics Staffing and Response Time Percentage

Special risks AHJ AHJ 90

Urban >1000 people/mi.2 15/9 90

Suburban 500–1000 people/mi.2 10/10 80

Rural < 500 people/mi.2 6/14 80

Remote* Travel dist 8 mi. 4 90

*Upon assembling the necessary resources at the emergency scene, the fire department should have the capability to safely commence an initial attack within 2 minutes 90 percent of the time.

4.3.3* Personnel responding to fires and other emergencies shall be organized into company units or response teams and shall have required apparatus and equipment.

4.3.4* Standard response assignments and procedures, including mutual aid response and mutual aid agreements predetermined by the location and nature of the reported incident, shall regulate the dispatch of companies, response groups, and command officers to fires and other emergency incidents.

Subject: I-69 Section 5 Environmental Studies -- Fire & Emergency Services follow-up

Hello Chief Livingston,

Thanks for your continued correspondence and involvement with the I-69 Section 5 project.

I am working with the project team to evaluate community impacts, including potential impacts to fire and emergency responders. In reviewing comments received during the comment period, I have a follow-up inquiry for you. In the attached letter, you reference NFPA guidance 1702/03. I have not been able to identify 1702 and 1703 guidelines on the NFPA codes and standards [webpage](#). Are you available to clarify/confirm where our team can review the six minute response time guidance from NFPA?

Please feel free to call or e-mail me if you have any questions or would like to discuss this inquiry.

I appreciate your time!

Best regards,
Jodie

EMS & Fire Protection Service Location

1. Provide the full name and address of your emergency response and/or fire protection service facility.

CITY OF BLOOMINGTON FIRE DEPT
P.O. BOX 100
BLOOMINGTON, IN 47402

2. Please provide contact information for future correspondence on this project.

CHIEF ROGER KERR
812-332-9763

3. How many years has your facility been at this location? STATION #2 - 11 yrs

4. How many full time employees do you have? 106

5. How many part time employees do you have? 0

6. What are your hours and days of operation? 24/7

7. Do you lease or own your site? CITY OWNED

General Information

8. What services do you provide (i.e. fire, emergency medical services, hazardous materials response, etc.)? FIRE, EMS

9. Is travel on SR 37 required to provide service? Yes ☒ No ☐
If yes, please highlight specific roads and interchanges used to access or cross SR 37 on the attached map.

10. Does existing congestion on SR 37 or at interchange areas currently interfere with the provision of emergency services and incident response times? If yes, please briefly describe.

YES, IF THERE IS CONGESTION AT ANY INTERCHANGE OR ON SR 37, THE RESPONSE TEAM MAY BE IMPEDED FROM THE INCIDENT SITE.

11. What is your average response time? 3-5 minutes

I-69 Evansville to Indianapolis Tier 2 Studies

12. May we review your annual incident statistics for this study? Yes ☒ No ☐
If possible, please provide a copy with this survey or email a digital copy to
MHamman@mbakercorp.com

13. If annual incident statistics are not available, please provide the name and number of someone in your department who may be available to discuss the frequency and location of incidents to which you respond.

14. To which hospitals do you transport for medical emergencies?

WE DO NOT PROVIDE TRANSPORTATION FOR MEDICAL " "
EMERGENCIES.

15. Please identify and describe the typical coordination/support with other emergency service providers in your area.

WE PROVIDE FOR AND RECEIVE MUTUAL AID FROM
SURROUNDING TOWNSHIP FIRE DEPARTMENTS

16. For each station, please provide the following details. This information will assist us in minimizing impacts to your response time. For additional stations, please continue on the back of this form.

Station # 1

Address: 300 E 4TH ST

Average staffing level and type (paid or volunteer): 15 PAID

Level of use of SR 37 for emergency response (low, medium, high): MEDIUM

Additional information about this station:

3. How many years has your facility been at this location? 3 years
4. How many full time employees do you have? 20
5. How many part time employees do you have? 5
6. What are your hours and days of operation? 24
7. Do you lease or own your site? OWN

General Information

8. What services do you provide (i.e. fire, emergency medical services, hazardous materials response, etc.)? FIRE, EMS, HAZMAT OPERATIONS NOT A CERTIFIED HAZMAT TEAM

9. Is travel on SR 37 required to provide service? Yes ☒ No ☐
If yes, please highlight specific roads and interchanges used to access or cross SR 37 on the attached map.

10. Does existing congestion on SR 37 or at interchange areas currently interfere with the provision of emergency services and incident response times? If yes, please briefly describe.

YES DURING WEEKENDS & HOURS DURING WEEK 4pm-7pm

11. What is your average response time? 4 MINUTES

I-69 Evansville to Indianapolis Tier 2 Studies

12. May we review your annual incident statistics for this study? Yes ☐ No ☐
If possible, please provide a copy with this survey or email a digital copy to MHamman@mbakercorp.com
13. If annual incident statistics are not available, please provide the name and number of someone in your department who may be available to discuss the frequency and location of incidents to which you respond.

14. To which hospitals do you transport for medical emergencies?

Most are Transported to I.U. Morgan Health by Private Ambulance, Rural Metro or County Ambulance Morgan County EMA

15. Please identify and describe the typical coordination/support with other emergency service providers in your area.

Rural Metro Ambulance Primary Transporting Ambulance Morgan County EMA Ambulance Backup Ambulance Maudselle Police & Morgan County Sheriff's Dept Law Enforcement Washington Twp Fire Dept - Assisted Fire Dept's Green Twp, Paragon, & Grass Twp Fire Dept's

16. For each station, please provide the following details. This information will assist us in minimizing impacts to your response time. For additional stations, please continue on the back of this form.

Station # _____

Address: _____

Transportation Information

17. Where are most of your services provided? (Check all that apply)

☐ Bloomington

☒ Martinsville

☐ Ellettsville

☒ Other (Please Identify) Methodist, Riley by Private & County Ambulances

☐ Out of state

18. From where do most of your employees and volunteers come? (Check all that apply)

☐ Bloomington

☒ Martinsville

☐ Ellettsville

☐ Other (Please Identify) _____

☐ Out of state

19. Does your service have specialized site requirements, such as rail access, acreage, underground storage areas, city water or sewer, permits, etc? _____
If yes, please describe. _____

20. Which of the following types of vehicles regularly access your facility? Check all that apply and provide a general estimate of the number per day.

☐ Passenger vehicles for employees _____

☒ Emergency vehicles _____

☒ Delivery trucks _____

☐ Rail cars _____

☐ Buses _____

☐ Other (specify) _____

Project Impacts

21. Do you currently have plans to expand your services? If yes, describe (add employees, add shifts, expand or build new facility at current site, expand your service area) and be as specific as possible.

I-69 Evansville to Indianapolis Tier 2 Studies

22. Do you believe that your EMS and/or fire protection service will be directly or indirectly affected by the project? If yes, how do you believe you will be affected?

yes, the access & interchange location for accessibility

- a. Will access to or from your service area be improved or impeded?

Depending on amount of location at interchanges it could make lower response time & impact emergency services

- b. Please describe the effects of any adverse impacts on your ability to continue to service the community at your current location.

Described above

23. Please review the attached table and provide your input on each of the proposed alternatives.

Other Information

24. Please provide any additional information or comments that you would like us to address. You may also attach additional sheets or a letter from your organization with your comments.

Thank you for your participation in this survey

Washington Twp. Fire \ Rescue

1890 State Road 44 Martinsville, IN 46151

Lonnie Kern
Fire Chief

Mr. Baker,

Thanks for taking the time to solicit our input on this project.

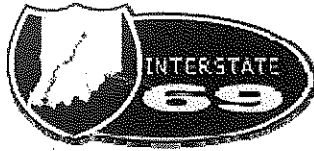

I have tried to provide the information that you have requested. Please contact me with any questions and please keep me informed on any updates.

The SR 37 and Liberty Church Road is a key location for us for response time and mutual aid both given and received. This area is a considerable distance from our fire house and already has a significant response time.

I have suggested a south bound exit only for Legendary Hills. This would prevent the addition of driving miles and not cause increased fire insurance rates for those residence due to increased driving miles.

Sincerely,

Lonnie Kern, Fire Chief

I-69 Evansville to Indianapolis Tier 2 Studies

EMS & Fire Protection Service Location

1. Provide the full name and address of your emergency response and/or fire protection service facility.

Washington Twp. Fire Department
1890 S.R. 44 Martinsville Indiana 46151

2. Please provide contact information for future correspondence on this project.

Lonnie Kern Fire Chief 765-792-0373 cell

3. How many years has your facility been at this location? 36
4. How many full time employees do you have? 7
5. How many part time employees do you have? 22
6. What are your hours and days of operation? 24-7-365
7. Do you lease or own your site? Own

General Information

8. What services do you provide (i.e. fire, emergency medical services, hazardous materials response, etc.)? All above

9. Is travel on SR 37 required to provide service? Yes ☒ No ☐
If yes, please highlight specific roads and interchanges used to access or cross SR 37 on the attached map.

10. Does existing congestion on SR 37 or at interchange areas currently interfere with the provision of emergency services and incident response times? If yes, please briefly describe.

Yes Congested Intersections & Red Lights slow our response

11. What is your average response time? 6 min. Count = 2353 Responses

I-69 Evansville to Indianapolis Tier 2 Studies

12. May we review your annual incident statistics for this study? Yes ☒ No ☐
If possible, please provide a copy with this survey or email a digital copy to MHamman@mbakercorp.com
13. If annual incident statistics are not available, please provide the name and number of someone in your department who may be available to discuss the frequency and location of incidents to which you respond.

For Further Details Lonnie Kern 765 792 0373 cell

14. To which hospitals do you transport for medical emergencies?

We are non-transport we contract w/ Rural Metro
we transport most of the time to Full Health Morgan

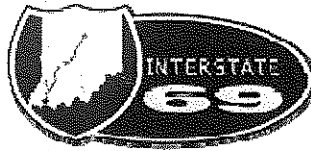

15. Please identify and describe the typical coordination/support with other emergency service providers in your area.

Mutual Aid w/ Paragon, Martinsville, Green Twp
Bloomington Twp. of Monroe Co.

16. For each station, please provide the following details. This information will assist us in minimizing impacts to your response time. For additional stations, please continue on the back of this form.

1 station only

Station # 1
Address: 1890 S.R. 44
Average staffing level and type (paid or volunteer): 2 Paid + Volunteer / off Duty
Level of use of SR 37 for emergency response (low, medium, high): Very High
Additional information about this station:
We process S.R. 37 for almost every call that we
respond to.

I-69 Evansville to Indianapolis Tier 2 Studies

Transportation Information

17. Where are most of your services provided? (Check all that apply)

- ☐ Bloomington
- ☒ Martinsville */ Washington Twp.*
- ☐ Ellettsville
- ☐ Other (Please Identify) _____
- ☐ Out of state

18. From where do most of your employees and volunteers come? (Check all that apply)

- ☐ Bloomington
- ☒ Martinsville */ Washington Twp.*
- ☐ Ellettsville
- ☐ Other (Please Identify) _____
- ☐ Out of state

19. Does your service have specialized site requirements, such as rail access, acreage, underground storage areas, city water or sewer, permits, etc? no

If yes, please describe. _____

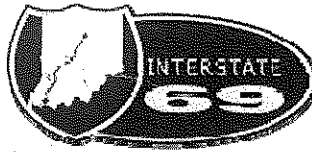

20. Which of the following types of vehicles regularly access your facility? Check all that apply and provide a general estimate of the number per day.

- ☒ Passenger vehicles for employees 4-6
- ☐ Emergency vehicles 6
- ☐ Delivery trucks FedEx UPS fairly Regular
- ☐ Rail cars X
- ☐ Buses X
- ☐ Other (specify) _____

Project Impacts

21. Do you currently have plans to expand your services? If yes, describe (add employees, add shifts, expand or build new facility at current site, expand your service area) and be as specific as possible.

No current plans the future may or will likely bring
a merger with the Martinsville F.D.

I-69 Evansville to Indianapolis Tier 2 Studies

22. Do you believe that your EMS and/or fire protection service will be directly or indirectly affected by the project? If yes, how do you believe you will be affected?

Heavily impacted especially with the location of overpasses and Interchanges

- a. Will access to or from your service area be improved or impeded?

- b. Please describe the effects of any adverse impacts on your ability to continue to service the community at your current location.

Elimination of intersections could have a positive impact but poor location of interchanges could and will have negative impact

23. Please review the attached table and provide your input on each of the proposed alternatives.

Other Information

24. Please provide any additional information or comments that you would like us to address.

You may also attach additional sheets or a letter from your organization with your comments.

I-69 SR 39 Interchange Needed

Exit only to legendary Hills (South Bound) would improve Response time
Interchange needed @ Liberty Church due to population
and Planned industrial Park as well as Access to Baker Twp
Baker Twp is Automatic Mutual Aid to Paragon Fire
Paragon Fire Also Provides Mutual Aid to Washington Twp
for all of the Liberty Church / Jordan Rd. Area.

I would like to have a discussion about this

Thank you for your participation in this survey

Joan Manning 812 339-4477

13. Please identify and describe the typical coordination/support with other law enforcement and emergency service providers in your area.

We provide dispatch services to them.

14. How many sworn officers are on staff at your facility? 98

15. When dispatched, do officers leave from a central location (station) or their homes?

If from a station, what are the addresses of your stations? Dispatched while patrolling the city

16. On average, how many officers are on patrol during the day and during the night? 8-12

Transportation Information

17. Where are most of your services provided? (Check all that apply)

- ☒ Bloomington
☐ Martinsville
☐ Ellettsville
☐ Other (Please Identify) _____
☐ Out of state

I-69 Evansville to Indianapolis Tier 2 Studies

18. From where do most of your employees come? (Check all that apply)

- ☒ Bloomington
☐ Martinsville
☒ Ellettsville
☐ Other (Please Identify) _____
☐ Out of state

19. Which of the following types of vehicles regularly access your facility? Check all that apply and provide a general estimate of the number per day.

- ☒ Passenger vehicles for employees _____
☒ Emergency vehicles _____
☒ Delivery trucks _____
☐ Rail cars _____
☐ Buses _____
☐ Other (specify) _____

Project Impacts

20. Do you currently have plans to expand your services? If yes, describe (add employees, add shifts, expand or build new facility at current site, expand your service area) and be as specific as possible.

21. Do you believe that your law enforcement service will be directly or indirectly affected by the project? If yes, how do you believe you will be affected?

yes. construction will close certain roads that intersect w/ 37. this will impact how we respond to calls

a. Will access to or from your service area be improved or impeded?

depends

b. Please describe the effects of any adverse impacts on your ability to continue to service the community at your current location.

Roads that are closed will impact how we respond

22. Please review the attached table and provide your input on each of the proposed alternatives.

Law Enforcement Location

1. Provide the full name and address of your law enforcement facility.

Ellettsville Police Department
1406 W. Temperance Street
Ellettsville, Indiana 47429

2. Please provide contact information for future correspondence on this project.

Town Marshal Anthony Bowen
812-876-2270 ext. 102
evl@ellettsville.in.us

3. How many years has your facility been at this location? 8 yrs.
4. How many full time employees do you have? 9
5. How many part time employees do you have? 2
6. What are your hours and days of operation? 24 / 7 operation

General Information

7. What services do you provide (i.e., patrol, dispatch, detective, court security, etc.)?
Patrol, Emergency response, traffic control, accident investigation, investigations
8. Is travel on SR 37 required to provide service? Yes ___ No ☒
If yes, please highlight specific roads and interchanges used to access or cross SR 37 on the attached map.
9. Does existing congestion on SR 37 or at interchange areas currently interfere with the provision of emergency services and incident response times? If yes, please briefly describe. No. Not for our department.
10. What is your average response time? Under 5 minutes.

I-69 Evansville to Indianapolis Tier 2 Studies

11. May we review your annual incident statistics for this study? Yes ☒ No ☐

If possible, please provide a copy with this survey or email a digital copy to MHamman@mbakercorp.com

12. If annual incident statistics are not available, please provide the name and number of someone in your department who may be available to discuss the frequency and location of incidents to which you respond.

digital copy sent.

13. Please identify and describe the typical coordination/support with other law enforcement and emergency service providers in your area.

Police, Fire & E.M.S. work together on accidents,
mass casualty, etc.
EPD & MCSO officers work together on calls
in fringe areas.

14. How many sworn officers are on staff at your facility? 11 sworn & 15 reserve police
officers

15. When dispatched, do officers leave from a central location (station) or their homes? _____

If from a station, what are the addresses of your stations? Officers are
either at 1406 W. Temperance or on patrol
when dispatched.

16. On average, how many officers are on patrol during the day and during the night? _____

1 to 2 per shift, 3 shifts per day

Transportation Information

17. Where are most of your services provided? (Check all that apply)

- ☐ Bloomington
☐ Martinsville
☒ Ellettsville
☒ Other (Please Identify) Monroe County
☐ Out of state

I-69 Evansville to Indianapolis Tier 2 Studies

18. From where do most of your employees come? (Check all that apply)

- ☒ Bloomington
☐ Martinsville
☒ Ellettsville
☒ Other (Please Identify) Stanford
☐ Out of state

19. Which of the following types of vehicles regularly access your facility? Check all that apply and provide a general estimate of the number per day.

- ☒ Passenger vehicles for employees 1-2 per day
☒ Emergency vehicles 6-7 per day
☒ Delivery trucks 1-3 per day
☐ Rail cars
☐ Buses
☒ Other (specify) Trash Truck 1-2 times week

Project Impacts

20. Do you currently have plans to expand your services? If yes, describe (add employees, add shifts, expand or build new facility at current site, expand your service area) and be as specific as possible.

Service area will expand with proposed annexation plan.

21. Do you believe that your law enforcement service will be directly or indirectly affected by the project? If yes, how do you believe you will be affected?

Indirectly. There will be an increase in traffic as people travel through our area to access I-69 and leave I-69 to access S.R. 46.

a. Will access to or from your service area be improved or impeded?

Improved

b. Please describe the effects of any adverse impacts on your ability to continue to service the community at your current location.

Increased traffic flow means more accidents and more demands on/for our service.

22. Please review the attached table and provide your input on each of the proposed alternatives.
